

Metal Detector

資正金屬檢出機

COMPUNIC

For Food & Pharmacy Industries

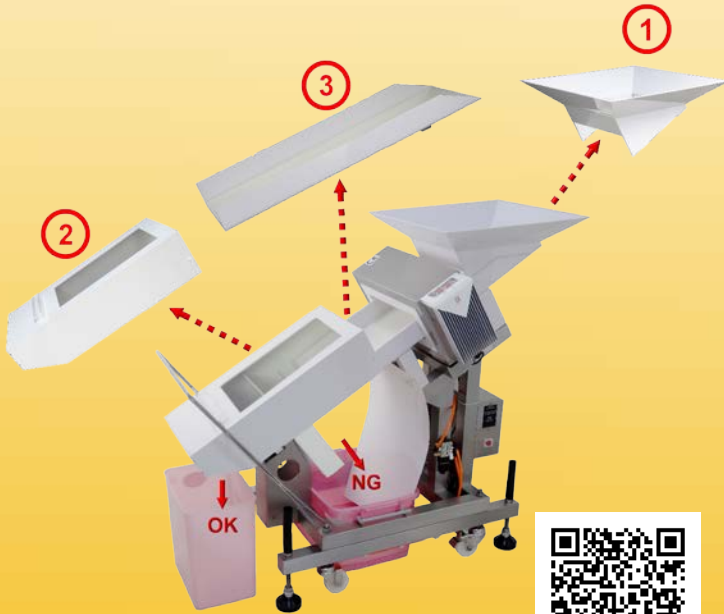

DETECT ALL METALS:

AL · CU · NI · Stainless · Iron · Non-Ferrous....

Innovative design , Progressive applications

- ◎ Slide-down Channel surpassed the traditional conveying belt platforms in testing products with sticky and oily properties which is difficult to test.
- ◎ Reduces maintenance cost, save time and money.
- ◎ User-friendly functionality and easy to clean compared to traditional conveying belt platforms.
- ◎ Easy to disassemble and assemble accessories.
- ◎ Reject device can be turned down forward fast and precisely exclude contaminated products.
- ◎ High sensitivity performance can detect fragment of metal or non-metal objects.
- ◎ Widely use in different area of food production, raw materials and before packing products.

MD3010 Slide-Down Channel

MD6210 Slide-Down Channel

Testable Product Characteristics:

Snacks

Frozen vegetables

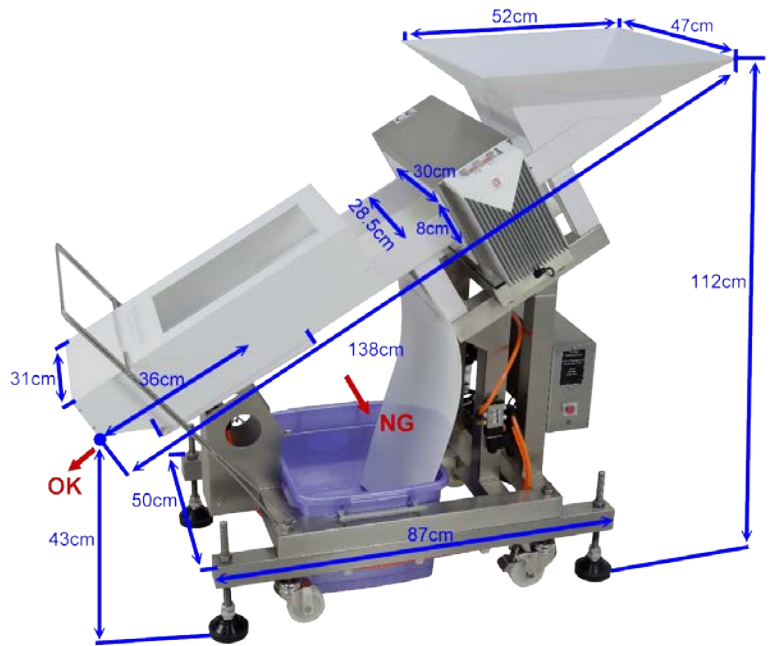

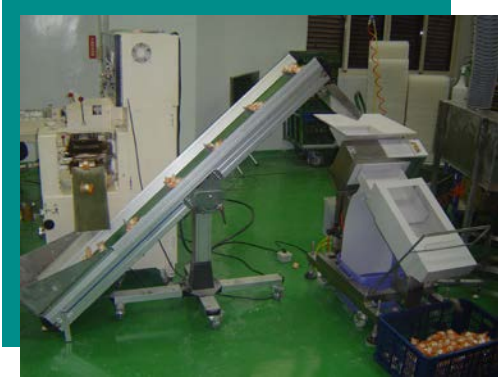

Meat Balls

Nuts
